

## **Professional Discount Policy Hyannis Country Garden**

At Hyannis Country Garden we're pleased to work with landscape professionals by providing a discount on goods from most departments. We request that an application be completed and submitted with a copy of a canceled check from your business account. (Business name or DBA printed on the check.)

Businesses spending over \$500 in one season qualify for the standard landscaping discounts. (See below.) All other businesses, new accounts buying in small volume, and non-profits will receive the normal quantity discount pricing in the nursery or 10% off. (The percentage discount is not added to a quantity discount or special sales pricing.) Nonprofits will provide 501c3 documentation.

Professional accounts must provide a list of employees who are authorized to purchase on their account. Discounts are non-transferable and cannot be extended to a landscaper's customers, friends, or family members.

Accounts are reviewed in January. Those who have purchased less than \$500.00 in the previous year will be placed back in the starter level of 10% off.

***Businesses who receive our full landscaper discounts assume all guarantees on plants.***

There is generally no discount on firewood, custom work, or bulk compost/loam/mulch that is delivered. Some hard good items may not be eligible for discounts. Ask a manager for details.

Discounts are available on regularly priced items and can't be combined with other sale pricing. Please call a manager for details. 508-775-8703
